**THE MOST INTUITIVE, EASY-TO-USE, VOCAL HARMONY
AND EFFECT PEDAL MADE FOR THE STAGE.**

Front Panel:

**VOCALIST
LIVE 5**

Rear Panel:

The Vocalist® Live 5 adds up to four independent voices to create a full, natural-sounding 5-part vocal harmony. The Live 5 automatically pick-up a songs key and key changes by following your lead vocals and guitar chord progression using patented musIQ™ technology. Just step on the footswitch while you're playing to fill the room with pitch-perfect backup vocals.

The staggered footswitches make it easier to navigate without looking down. You won't need to waste time and energy to double check your feet before kicking it on because you'll know exactly where you are. By placing the footswitches for vocal harmony and effects on opposite sides of the pedal it is virtually impossible to hit the wrong one when it matters.

Additional Features:

- Effortlessly create a full, natural sounding 5 part vocal harmony by adding 4 additional independent voices of harmony using musIQ®
- Give the harmonies a masculine or feminine sounding voice
- Adjust the natural elements of the harmonies to give them the most natural sound available
- Real-time chromatic pitch correction
- Vocal Effects include preamp, compressor, lead effects, reverb, and delay
- 100 Presets with an A & B patch
- Modern chassis design with 5 staggered metal vacuum switches
- Large, easy-to-read LED Display
- Guitar Effects include reverb, flanger, and chorus
- Built-in chromatic guitar tuner
