The New Sonor Hardware Generation

Sonor presents a totally new hardware generation. It offers outstanding stability, great functionality and perfection in detail. The 200 Series were developed with focus on easy handling and high compatibility with all Force series. Both series – the 600 and 400 – have been designed by Sonor to meet today's requirements in any musical setting. They offer a wide choice for individual demands with the flexibility to put together exactly the setup you need.

200 SERIES

The perfect choice for all drummers seeking reliable and solid hardware with Sonor quality features. Available as single components or pre-configured sets.

400 SERIES

Offers everything a pro drummer needs. High dimension tubing and solid double-brace legs offer durability and great looking design. A complete hardware set eases first selection or the upgrade from an existing setup.

Flexibility
Double braced legs for enhanced stability and professional looks.

Stable
High dimension tubes for enhanced stability and professional design

Giant Design
Bass Drum Pedal with Giant Step Footboard Design

Rotational Foot Board
Hi hat stand with patented rotational foot board for individual adjustment

Hardware Set HS 200
Available as 5-piece set or single components

Footboard with Support Board
Bass drum pedal with Giant Step design and support board

600 SERIES

The new premium class in hardware. Everything you expect in functionality, reliability, and design. Solidly built with a range of innovations that make life easier and allow for even the most individual setups

Innovative and Practical
New 3-section clamp system for maximum hold with minimum force (patented)

Premium in Reliability
New premium hardware series with Ultra Dimension tube design for maximum stability and reliability

Variable
Retractable boom arm conveniently converts into straight cymbal stand

Easy Handling
Wide range of single components for highest demands in professional playing situations

Smart Connect and Dockingstation
High performance Bass Drum Pedal with Giant Step foot board design. The Docking Station allows a tension free fixing on the Bass Drum hoop. No damaging and easy handling.

Independently Adjustable Base Leg
Setup mountable on the smallest space with maximum stability.
